

# MANAGED IT SERVICES

## YOUR FULL-STACK IT DEPARTMENT, WITHOUT THE HEADCOUNT.

Choose from one of our three packages to get the best fit for your operations:

### CORE-CARE:

Ideal for businesses looking for fundamental I.T. protection and management, this package covers essential services such as email spam filtering, password management, and daily backups to keep your systems running smoothly.

### SECURE-CARE:

Offers everything in Core-CARE plus more robust security features, advanced cybersecurity solutions, disaster recovery planning, and compliance support for industries that need higher levels of protection.

### ENTERPRISE-CARE:

Our most comprehensive plan, providing fully managed I.T. services including virtual CIO consulting, proactive maintenance, security audits, and full technical support, ensuring complete peace of mind.

All packages are **fully customizable** to fit your specific business needs, so you can scale your I.T. support as your business grows.
